layers of protection

4

KN95 Protective mask

[Instructions]

1. Hold the nose clip over the mask and use the mask against the chin

2. Pull the ear strap behind your ears and adjust the position as comfortably as possible.

3. Move from the middle of the nose clip to both sides while pressing until the nose clip fits the bridge of the nose.

4. Check the tightness of the mask to the face.

[Precautions]

1. The mask can be used for respiratory protection of certain non-oily particles (dust, pollen and other productive dusts and air pollutants such as volatile haze).
2. This product cannot be used in hypoxic environments
3. This product cannot be used for protective filtering of toxic gases and vapors
4. Mask pollution, damage, aging, failure, etc., need to be replaced with a new mask

Children must use under the guidance of adults, please keep it in a safe place to avoid accidents!

Model: KN95 Level: First grade
